

AMENDMENTS TO THE SPECIFICATION

On page 5, please insert the following paragraph after the second full paragraph that begins on line 16:

61 Fig. 3 is a side view showing the mounting structure of the hybrid light module.

On page 8, please add the following paragraph after the first full paragraph that begins on line 11:

62 Fig. 3 shows an embodiment of the hybrid optical module. The hybrid optical module comprises a prism 24 and a laser diode 25 formed on the photodiode IC substrate 20 (silicon substrate). Furthermore, the photo-electric conversion device 22 operates as a photo detector and a photo diode.
